CYXCEL®

Senior Analyst, Advisory

Job Title: Senior Analyst, Risk Advisory Services
Location: Atlanta, US
Role: Full time

About Us

At CyXcel, we believe that the future is built on the foundations we secure today. In a world where digital threats evolve by the hour, success isn't just about innovation — it's about resilience. Our mission, **"Tomorrow's success, secured today,"** reflects our commitment to empowering everyone to thrive in an ever-changing landscape.

By staying one step ahead of the risks, we protect not only our clients' but their vision for the future. We're more than just a cybersecurity consultancy — we're the guardians of progress, ensuring that the breakthroughs of tomorrow are never compromised by the challenges of today.

We offer fully integrated, customizable solutions that combine expertise in technology, cybersecurity, law, and geopolitics to meet our customers' needs:

- **Rescue** – All aspects of incident management and response, to ensure our clients emerge from a breach swiftly, effectively, and more resilient.
- **Resolve** – A full-spectrum suite of services to strengthen our clients against disruption and threats, while protecting its rights and reputation.
- **Transform** – A bespoke service to upgrade our clients' digital and cybersecurity infrastructure, covering everything from design to delivery.
- **Operate** – Hosted and managed security solutions, specialist industry services, and on-demand access to extra capacity and skills augmentation.

Job Description

CyXcel is actively seeking a skilled and motivated **Senior Analyst** to join our dynamic team. The ideal candidate must have proven experience with cybersecurity technologies, delivering governance, risk & compliance engagements, and driving project to closure with a Big4 consulting firm. This opportunity is a full-time opportunity.

The Senior Analyst position will require a motivated individual with the ability to research and help drive engagements to completion with a client-first mindset. This position demands a forward-thinking person who can help guide and direct CyXcel clients in their cybersecurity journey.

Key Responsibilities

- Work closely with clients to understand their needs and develop tailored strategies and solutions
- Ensure that client adheres to relevant regulations and standards based on client's industry
- Provide client with process improvements by providing best practices and solutions

- Facilitate client communications and participate in engagement activities, reviews, and debriefs
- Collaborate on the creation of security standards and organizational policies
- Work with other teams to assist in delivery across multiple service lines
- Ensure engagements stay on-time and on-budget while delivering quality outcomes
- Stay ahead of industry trends and emerging risks, providing clients with insight and recommendations
- Assist with multiple engagements simultaneously
- Ability to work in a national/international team environment, collaborating well with others

Qualifications and Experience

- 2+ years of experience in Big4 consulting firm
- 2+ years of experience in delivering Risk advisory services
- Obtained one or more certifications in the field of Cybersecurity
- Experience with Microsoft Office (Word, Excel, PowerPoint, Outlook, Teams)
- General understanding of security frameworks
- General understanding of regulatory compliance requirements
- Strong written and verbal communications skills; strong organizational skills
- Bachelor's degree from a accredited college or university in Cybersecurity, Information Technology, computer engineering or a related field
- Willingness to travel up to 80%
